2005-now	Center for AIDS Prevention Studies Computer User's Steering Committee
2006	Center for AIDS Prevention Studies Quality of Work Life Ad Hoc Committee

PUBLIC SERVICE:

1993	Bikes Not Bombs	Bicycle Repair Services
1994	City of Austin	Greenbelt Trail Litter Abatement
2000-01	University of Texas at Austin	Doctoral Committee Member
2002	City of Berkeley	Waterfront Commissioner
2003	Peralta College, Alameda	Psychology Club Invited Speaker
2004-05	San Francisco Vegetarian Society	Tabling Volunteer
2005-06	Texas A&M University	Doctoral Committee Member
2005-now	Emerging Scholars Interest Network	Pro Bono Statistical Consultation

SUMMARY OF SERVICE ACTIVITIES

Within UCSF I have served on several mission-critical committees, including the division's computer steering committee. I provide regular methodological peer reviewing services to my colleagues within CAPS and several other divisions in the Department of Medicine (e.g., the Epidemiology and Preventions Intervention Center). Outside of UCSF I have served as an ad hoc reviewer of scientific proposals and manuscripts on a regular basis as well as donated time to Emerging Scholars Interest Network, a consortium of junior scholars of color. I have also been invited to deliver methodological and substantive presentations to students at local higher education institutions (e.g., UC Berkeley).

TEACHING NARRATIVE

Statistical and methodological consulting and teaching at the Center for AIDS Prevention Studies at UCSF, and seminar leadership and consultations for the Collaborative HIV Prevention Research in Minority Communities program constitute the majority of my teaching activities. As Director of the CAPS Methods Core, I also mentor Trainees in AIDS Prevention Studies (TAPS) fellows and CAPS junior faculty who have K-awards in methodological and statistical issues.

RESEARCH AND CREATIVE ACTIVITIES

RESEARCH NARRATIVE

My current research activities fall into four distinct domains: (1) quantitative data analysis methods and survey scale development, (2) directorship of the Center for AIDS Prevention Studies (CAPS) Methods Core, (3) identifying the precursors and effects of childhood sexual abuse in men who are at risk for contracting HIV, and (4) advanced quantitative methodological, statistical, and data analytic support for epidemiological and behavioral HIV prevention research efforts.
